as of December 31, 2021

**INVESTMENT OBJECTIVE**

The GraniteShares Platinum Trust seeks to track the price of platinum, less Trust expenses.

**ADVANTAGES OF PLTM**

**Physically-Backed and Secure:** The Trust holds physical platinum bars in a secure vault in London that is inspected twice per year (once at random).

**Transparency:** The list of platinum bars owned by the Trust is posted daily on our website at [www.graniteshares.com](http://www.graniteshares.com).

**Cost-Effective:** PLTM provides a low-cost way to access platinum via an ETF. These costs are typically less than those involved with the purchase, storage and insurance of physical platinum.

**Accessible:** The GraniteShares Platinum Trust is listed on the NYSE Arca (Ticker: PLTM) and can be traded intra-day like an ordinary stock.

*Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. Returns less than one year are not annualized. NAV prices are used to calculate market price performance prior to the date when the Fund first traded on the New York Stock Exchange. Market performance is determined using the bid/ask midpoint at 4:00pm Eastern time, when the NAV is typically calculated. Market performance does not represent the returns you would receive if you traded shares at other times.
